

About Us

Kawartha Lakes Construction is an award-winning residential design-build firm located in beautiful Lakefield Ontario in the heart of the Kawarthas. We have been building exceptional experiences with homeowners for more than 30 years. To learn more about us please visit us online at kawarthalakesconstruction.com

What we offer

We offer more than just a job; we offer a career. Are you positive? Do you like being resourceful? Do you like being creative? Are you passionate about the details? Do you enjoy the opportunity to change and grow? These are benchmarks for joining our team and what you can expect. Your current skill set is important, but they are secondary to the above. Training, support, and growth are provided and paramount for our mutual success. All of our positions come with perks, including extended health care benefits, life/long term disability insurance and profit sharing and, most importantly, camaraderie!

The Role

The Residential Construction Estimator is responsible for compiling estimates in costing products and services for our clients. Determining budgets, the Project Estimator assesses the material, labour, and equipment required, analyzing different quotes from sub-contractors and suppliers.

Main Duties & Responsibilities

- Read blueprints and technical documents to prepare estimates for various residential projects.
- Identify and quantify cost factors, such as production time and material, equipment, and labour expenses.
- Verify returned tenders are clear, complete, and accurate; resubmit requests to clarify ambiguities and ensure accuracy.

- Review final quotations for vendors/suppliers to ensure all details are accurate and submit to finance department for payment.
- Analyze project-end report details to identify ambiguities in assignment of cost data to division and category.

Required Qualifications & Experience

- 5 years residential construction experience.
- College business administration and or architectural technologist diploma.
- Knowledge of the Ontario Building Code & appropriate standards and practices.
- Knowledge of residential construction and renovation techniques.
- Experience in project evaluation and budgeting of residential construction.
- Excellent written and verbal communication skills.
- Advanced knowledge of Excel and construction math

Please submit your resume, and a cover letter, telling us why you would be our next great team member to: recruitment@kawarthalakesconstruction.com

We thank all applicants for their interest, however only those selected for an interview will be contacted.
