

Good people building great things.

Our mission is to build exceptional experiences.

As leaders in creating custom, enhanced living spaces throughout the Kawarthas, we believe in the power of our people above all else. Through assembling a team of knowledgeable, energetic and creative professionals, we are able to collaboratively deliver an exceptional experience, not just for our clients but for everyone involved on a project.

DESIGN-BUILD PROFESSIONALS

Design and Project Development Manager - Residential Construction

Kawartha Lakes Construction requires a proven manager of people and process.

As the Manager of the Design and Project Development team you will ensure the team is creating exceptional solutions for our clients, coming in on time and on budget, while delivering the form and function desired while also meeting the expectations of the company as a whole.

You will create and maintain the Design and Development schedules delivering to our production team on time to ensure client satisfaction.

You have a proven ability to oversee the design and development of several projects with competing deadlines and identify and correct bottlenecks, while adhering to schedule.

You possess a thorough knowledge of custom residential design and construction and are driven to provide exceptional experiences for clients and your team.

You are a process driven professional with 10+ years of departmental management experience
